TRANSACTION THE BUSINESS OF A RESELLER)	CASE NO. 92-197
OF INTEREXCHANGE TELECOMMUNICATIONS)	
SERVICES AND FOR APPROVAL OF ITS)	
INITIAL TARIFF)	

O R D E R

On June 4, 1992, Enterprise Telcom Services, Inc. ("Enterprise") filed its application with the Commission seeking a Certificate of Public Convenience and Necessity to provide intra-state, long-distance telecommunications services as a reseller within the Commonwealth of Kentucky.

Enterprise is a Delaware Corporation proposing to resell AT&T Communications of the South Central States, Inc. ("AT&T"), other facilities-based IXC's, and the local exchange telephone companies tariffed services. Additionally, AT&T will provide most of the required network management and operation. Enterprise has contracted with Cincinnati Bell Information Systems to provide billing services and customer services for billing inquiries. Enterprise will not provide any operator services, including the use of "smart" or "intelligent" payphones, or construct any facilities in Kentucky.

In response to the Commission's July 1, 1992 Order, Enterprise indicated it is affiliated with Commonwealth Long Distance, Inc.,

a company which operates coin-operated telephones. If Enterprise or Commonwealth Long Distance, Inc. intend to provide such service in Kentucky, prior Commission approval is necessary.

In its application, Enterprise describes an initial service offering as "dedicated to dedicated outbound." The Commission regards this service as a "private line" service, which cannot be authorized for resale.

The application provided by Enterprise demonstrates its financial, managerial, and technical capability. The rates proposed are fair, just, and reasonable and should be approved.

The Commission, having considered the application, the information provided by Enterprise, and being otherwise sufficiently advised, HEREBY ORDERS that:

1. Enterprise be and it hereby is granted authority to provide intrastate, long-distance telecommunications services within the Commonwealth on and after the date of this Order.

2. Enterprise shall comply with the provisions of the Order in Administrative Case No. 323.¹

3. Enterprise's application to provide dedicated to dedicated outbound service is denied.

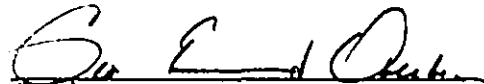

¹ Administrative Case No. 323, An Inquiry Into IntraLATA Toll Competition, An Appropriate Compensation Scheme for Completion of IntraLATA Calls by Interexchange Carriers, and WATS Jurisdictionality, Phase I, Order dated May 6, 1991.

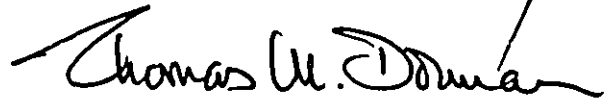

4. The rates proposed by Enterprise are hereby approved.

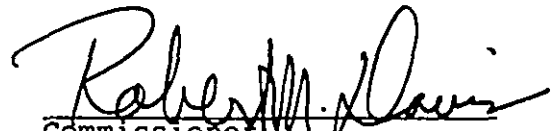

5. Within 30 days from the date of this Order, Enterprise shall file its tariff sheets pursuant to 807 KAR 5:001, setting out the rates approved herein.

Done at Frankfort, Kentucky, this 21st day of August, 1992.
